

Offer for the quality check process/2024

Our company provides a wide range of services for obtaining documents on the safety and quality of various types of products. These documents are used for exporting goods to foreign countries markets. To organize the import of products outside the country of origin, it is necessary to obtain documents on the quality and safety of any types of products.

Our team of experienced specialists have extensive knowledge in organizing and obtaining documents on product quality control for different Countries.

Suppliers and manufacturers of products, after using our services, will get documents on the quality and safety of the declared products. We provide services on the basis and in accordance with the terms of the signed contract.

Before signing a contract, we conduct a preliminary assessment of the possibility of services provision, since we value our reputation very much and do not take on work whose success we are not 100% sure successful results.

For the purpose of preliminary verification, we request from Product Suppliers the documents necessary to assess the safety of the quality of their products.

- 1) Business license of the applicant (manufacturer/supplier) under the contract
- 2) signed agreement on the provision of services
- 3) photos of products and labels with information printed on them in the language of the country of origin.
- 4) detailed Information on the composition and technical characteristics of products

- rules for using products
- scanned copies of documents on product inspection by local regulatory authorities (if available)

- 5) detailed information about the importing company (if any)

After receiving information about the composition of the product, our specialists calculate the cost of quality control services and send this information to the applicant for approval and prepare an agreement with needed conditions and payment terms.

We always indicate the detailed terms of payment for this type of service in the contract and start quality control after receiving 50% of the prepayment of the full cost of the requested services.

We can also provide Manufacturers and Suppliers with additional services to obtain additional documentation for medical equipment, food products, and many other types of goods for foreign markets.

Sincerely - Management of **GENERATION WORLD LTD**
